To the Clients of the

## Springfield Fire and Marine Insurance Co.

Gentlemen: Fully recognizing the close relations between the insured and the insurer, we take especial pleasure in handing you, with this, an exhibit of the financial condition of this Company at the close of 1905.

Organized nearly sixty years ago (in 1849) with a Cash Capital of \$500,000, it has had its full share in the great conflagrations; that of Chicago, in October, 1871, requiring an assessment upon its stock-holders of sixty-five per cent (65 per cent), and that of Boston, in November, 1872, requiring thirty per cent (30 per cent), the calls from the subsequent great conflagrations being met from its own direct resources without impairment of Capital. The Baltimore, Rochester, and Toronto conflagrations of 1904, cost the Company \$512,480.00. The aggregate of losses paid since organization being \$36,129,703.52.

The Springfield estimates its losses in the San Francisco conflagration at \$1,676,455, which are being adjusted and paid.

The modest income of the earlier years has steadily increased, year by year, until it has reached three and one-half millions, in 1905, and its Capital has advanced from \$500,000 to \$2,000,000.

The Springfield carries a Reserve of unearned premiums of \$2,907,226.85, and a Net Surplus, as regards policy-holders, of \$4,024,000.40. The financial management of the Company is shown in its revenue from invested funds (Interests and Rents), being, in 1905, \$221,832.20, enabling it to meet its dividends to stock-holders without recourse to possible profit in Underwriting.

The Springfield has always taken a broad and liberal view in its dealings with its clients and agents, without losing sight of the underlying principles and practices in Fire Underwriting. To this is largely due the excellent position the Springfield occupies in the Insurance world, and especially its popularity with its agents in the local field.

Yours very truly,

*Geo. D. Dornau*

Manager.

# HEALD'S ASSOCIATED COLLEGES

## Heald's Business College

1451 Franklin Street

Bet. Sutter and Bush Sts.

San Francisco, Cal.

## Heald's Dixon College

Bacon Block, Washington St.

Bet. 11th and 12th Sts.

Oakland, Cal.

These Schools prepare pupils thoroughly for commercial pursuits in all lines; also for practical work in all the Engineering professions. The success of their graduates is well known to the whole community.

### HEALD'S COLLEGE

Has become a household word all over the Pacific Coast, as it has stood in the front rank of our Educational institutions for forty-three years.

### PUPILS CAN ATTEND EITHER SCHOOL.

Pupils paying at one school can attend the other school if found more convenient. Both schools are thoroughly up to date in their methods.

### POSITIONS FOR GRADUATES.

The Heald Colleges have always made it a point to take care of its pupils and to furnish situations to all worthy graduates. No pains will be spared in the future to find employment for those who attend any of its Associated Colleges.

### HEALD'S SCHOOL OF ENGINEERING

Gives pupils a scientific and practical training in Mining Engineering, Electrical Engineering, Civil Engineering, Steam Engineering and Gas Engineering.

### RATES OF TUITION

Are as low as is consistent with first class instruction. The HEALD Schools stand for quality, and any one patronizing them knows he will get the best that is to be had in the Educational line. This is why their graduates are invariably successful in their callings.

### FULL INFORMATION

May be had in regard to any of the Schools or any of the Departments by addressing

E. P. HEALD, President

1451 Franklin Street

San Francisco, Cal.

HOME INDUSTRY. KEEP YOUR MONEY AT HOME

# WESTERN EXPANDED METAL & FIREPROOFING COMPANY

FACTORY NOT DESTROYED.

NOW RUNNING FULL TIME

We are prepared to furnish all gauges of Expanded Metal and all sizes of the famous Corrugated Steel Bars, for use in reinforced concrete construction. We have made arrangements with Eastern Associates and Rolling Mills to furnish all above materials, enough to rebuild San Francisco. Now booking orders. We will take care of you.

Factory, 730 Second Street, near Townsend.

The Western Expanded Metal & Fireproofing Co. came out of the calamity with their factory and shop intact and are now engaged in doing considerable repair and construction work, being probably the first one to get actually at work on the Kohl Building, corner of California and Montgomery Streets, which building was originally fire-proofed by this Company, and came out of the fire in better condition than any other building in the fire limits.

The Company's factory is now running, usual time, and are filling large orders for Expanded Metal, and are prepared to furnish Expanded Metal of all gauges and sizes, as well as the famous Corrugated Steel Bars, for which they are the agents on the Pacific Coast, for fireproofing purposes, and have arranged with their Eastern Associates and Rolling Mills to take care of every order they may require in San Francisco, even to the extent of the entire rebuilding of this city.

The buildings fireproofed by this Company, like the Fairmont Hotel, the Kohl Building, the Monadnock, the Newman & Levison, California Wine Association Building, the J. A. Folger Warehouse, Ferry Building, United States Postoffice and Courthouse Building, 7th and Mission Streets, Young Building, corner Spear and Market Streets, and many others came out of the fire in splendid condition and show the value of their construction. As this is a Home Industry builders should calculate to patronize the same before sending their money abroad.
